

## Dynamo Top Loader and Front Loader Ingredients

Products launched prior to October 2016

### Dynamo Regular Top Loader

| Ingredients (INCI Name)               | Purpose                                    |
|---------------------------------------|--|
| Water                                 | Consistency                                |
| Pentasodium Triphosphate              | Water softener and anti-redeposition agent |
| Sodium Tridecyl Benzene Sulfonate     | Cleaning agent                             |
| Sodium Carbonate                      | Alkalinity agent and cleaning aid          |
| Sodium Laureth Sulfate                | Cleaning agent                             |
| Silicone Antifoam Compound            | Foam regulating agent                      |
| Disodium Distyrylbiphenyl Disulfonate | Whitening agent                            |
| Acrylates Copolymer                   | Viscosity regulator                        |
| Sodium Bicarbonate                    | pH buffer                                  |
| Fragrance                             | Pleasant scent                             |
| Isothiazolinones                      | Preservative                               |
| Dyes                                  | Colour                                     |

### Dynamo Regular Front Loader

| Ingredients (INCI Name)               | Purpose                                    |
|---------------------------------------|--|
| Water                                 | Consistency                                |
| Pentasodium Triphosphate              | Water softener and anti-redeposition agent |
| Sodium Tridecyl Benzene Sulfonate     | Cleaning agent                             |
| Sodium Carbonate                      | Alkalinity agent and cleaning aid          |
| Sodium Laureth Sulfate                | Cleaning agent                             |
| Silicone Antifoam Compound            | Foam regulating agent                      |
| Disodium Distyrylbiphenyl Disulfonate | Whitening agent                            |
| Acrylates Copolymer                   | Viscosity regulator                        |
| Sodium Bicarbonate                    | pH buffer                                  |
| Fragrance                             | Pleasant scent                             |
| Isothiazolinones                      | Preservative                               |
| Dyes                                  | Colour                                     |

### Dynamo Eucalyptus Top Loader

| <b>Ingredients (INCI Name)</b>        | <b>Purpose</b>                             |
|---------------------------------------|--|
| Water                                 | Consistency                                |
| Pentasodium Triphosphate              | Water softener and anti-redeposition agent |
| Sodium Tridecyl Benzene Sulfonate     | Cleaning agent                             |
| Sodium Carbonate                      | Alkalinity agent and cleaning aid          |
| Sodium Laureth Sulfate                | Cleaning agent                             |
| Silicone Antifoam Compound            | Foam regulating agent                      |
| Disodium Distyrylbiphenyl Disulfonate | Whitening agent                            |
| Acrylates Copolymer                   | Viscosity regulator                        |
| Sodium Bicarbonate                    | pH buffer                                  |
| Fragrance                             | Pleasant scent                             |
| Isothiazolinones                      | Preservative                               |
| Dyes                                  | Colour                                     |

### Dynamo Eucalyptus Front Loader

| <b>Ingredients (INCI Name)</b>        | <b>Purpose</b>                             |
|---------------------------------------|--|
| Water                                 | Consistency                                |
| Pentasodium Triphosphate              | Water softener and anti-redeposition agent |
| Sodium Tridecyl Benzene Sulfonate     | Cleaning agent                             |
| Sodium Carbonate                      | Alkalinity agent and cleaning aid          |
| Sodium Laureth Sulfate                | Cleaning agent                             |
| Silicone Antifoam Compound            | Foam regulating agent                      |
| Disodium Distyrylbiphenyl Disulfonate | Whitening agent                            |
| Acrylates Copolymer                   | Viscosity regulator                        |
| Sodium Bicarbonate                    | pH buffer                                  |
| Fragrance                             | Pleasant scent                             |
| Isothiazolinones                      | Preservative                               |
| Dyes                                  | Colour                                     |

### Dynamo with a Boost of Sard Top Loader

| Ingredients (INCI Name)                           | Purpose                                    |
|---|--|
| Water   | Consistency                                |
| Pentasodium Triphosphate                          | Water softener and anti-redeposition agent |
| Sodium Tridecyl Benzene Sulfonate                 | Cleaning agent                             |
| Sodium Carbonate                                  | Alkalinity agent and cleaning aid          |
| Sodium Laureth Sulfate                            | Cleaning agent                             |
| Silicone Antifoam Compound                        | Foam regulating agent                      |
| Disodium Distyrylbiphenyl Disulfonate             | Whitening agent                            |
| Sulfonated Tetrabenzo-tetraazaporphine derivative | Whitening agent                            |
| Acrylates Copolymer                               | Viscosity regulator                        |
| Sodium Bicarbonate                                | pH buffer                                  |
| Fragrance   | Pleasant scent                             |
| Isothiazolinones                                  | Preservative                               |

### Dynamo with a Boost of Sard Front Loader

| Ingredients (INCI Name)                           | Purpose                                    |
|---|--|
| Water   | Consistency                                |
| Pentasodium Triphosphate                          | Water softener and anti-redeposition agent |
| Sodium Tridecyl Benzene Sulfonate                 | Cleaning agent                             |
| Sodium Carbonate                                  | Alkalinity agent and cleaning aid          |
| Sodium Laureth Sulfate                            | Cleaning agent                             |
| Silicone Antifoam Compound                        | Foam regulating agent                      |
| Disodium Distyrylbiphenyl Disulfonate             | Whitening agent                            |
| Sulfonated Tetrabenzo-tetraazaporphine derivative | Whitening agent                            |
| Acrylates Copolymer                               | Viscosity regulator                        |
| Sodium Bicarbonate                                | pH buffer                                  |
| Fragrance   | Pleasant scent                             |
| Isothiazolinones                                  | Preservative                               |

## Dynamo Maximum Top Loader

| Ingredients (INCI Name)                  | Purpose                                    |
|--|--|
